Regional Anesthesia and Pain Medicine 25(6): 667–674, 2000

Subject Index: Volume 25, 2000

Abdominal pain, thoracic paravertebral block for, 651
Acute nociception, lack of secondary hyperalgesia and central sensitization in, 174
Adenosine, clinical/preclinical studies, 117
α-2-Adrenergic agonists, long-term spinal, clinical/preclinical studies, 117
α2-Adrenergic receptors, clonidine nerve-blocking action and, 620
Afferent fibers, in visceral pain signaling, 632
Agitation, after upper extremity block, ropivacaine and, 103 (letter)
Air, for epidural space identification, quality of analgesia after, 596
Alkalinization
  lidocaine, for sub-Tenon's block, 514
  of ropivacaine, precipitation characteristics and, 518
Allodynia
  capsaicin-induced, oral mexiletine for, 468
  with neuropathic pain, oral mexiletine for, 459
Analgesia. *See specific types of analgesia*
Analgesics. *See specific analgesics*
Anesthesiologists, medical resources on Internet for, 99
Anesthetics. *See specific anesthetics/anesthetic techniques*
Ankle block, effect of ketorolac addition, 506
Anogenital pain, computed tomography-guided pudendal nerve block for, 420
Anterior spinal artery syndrome, following neuroaxial anesthesia, 83
Antiapoptotic strategies, 22
Anticoagulants
  heparin. *See* Heparin
  spinal hematoma development and, 83
Antiplatelet agents, spinal hematoma development and, 83
Anxiety, after upper extremity block, ropivacaine and, 103 (letter)
Aphesia, after tourniquet release in intravenous regional lidocaine anesthesia, 211 (letter)
Apoptosis, mechanisms, 22
Atropine, before simulated epidural test dose, increased heart rate and, 566
Autonomic nerve block, lateral cervical epidural catheter placement, 313
Axillary brachial plexus block
  complicated by hematoma and radial nerve injury, 103 (letter)
  continuous, ropivacaine efficacy in, 47, 664 (letter)
  with neostigmine, 323 (letter)
  transarterial technique versus peripheral nerve stimulator technique, 660 (letter)

Ball-pen spinal needle, first experience with, 209 (letter)
Bending sign technique, 661 (letter)
Book reviews
  Anesthesia (Miller), 656
  Atlas of Anesthesia Volume VII Pediatric Anesthesia (Greeley), 432
  Cardiac Anesthesia, fourth edition (Kaplan), 432
  Complications in Anesthesia (Atlee), 333
  Numb Toes and Aching Soles: Coping with Peripheral Neuropathy (Senneff), 333
  Obstetric Anesthesia Principles and Practice, 2nd Edition (Chestnut), 433
  Pain Management and Regional Anesthesia in Trauma (Rosenberg, Grande and Bernstein), 334
Brachial plexus block
  axillary. *See* Axillary brachial plexus block
  interscalene. *See* Interscalene brachial plexus block
  intraclavicular, ultrasound-guided, 600
  subclavian perivascular, 41
  supraclavicular lateral paravascular, fluoroscopic imaging during, 327 (letter)
Brachial plexus palsy, after total shoulder arthroplasty with intrascalene block anesthesia, 318
Breast cancer surgery, EMLA for pain management in, 350
Bupivacaine
  with alkalinized lidocaine and hyaluronidase for sub-Tenon's block, 514
  epidural
    antinociceptive and motor-blocking action of, 522
    versus buprenophrine, 212 (letter)
    effect on spinal block during combined spinal epidural anesthesia, 591
  equipotency with ropivacaine in peripheral nerve block, 659 (letter)
  with fentanyl, for Cesarean delivery, 240
  hyperbaric versus low-dose plain, for unilateral spinal anesthesia, 605
  intraarticular, with morphine for postoperative pain, 611
  intradermal, skin blood flow changes, 626
  intramuscular injection pain intensity, dexamethasone effect on, 615
  intrathecal
    for combined spinal and epidural technique with ropivacaine and fentanyl, 223
    with ropivacaine, for refractory pain, 480
  with mepivacaine for peribulbar anesthesia, versus ropivacaine, 195
  peripheral nerve block, with lidocaine, tinnitus suppression from, 67
  with ropivacaine, intrathecal delivery for refractory pain, 480
  spinal anesthesia, versus lumbar plexus block with sacral plexus block, 158
  thoracic paravertebral block, 651
Buprenophrine, epidural analgesia, versus bupivacaine, 212 (letter)

Cadaver, stellate ganglion block injectate spread, 573

Calciphylaxis, neurolytic lumbar sympathetic block for, 310
Calcium channel blockers, N-type voltage-sensitive
clinical/preclinical studies, 117
intrathecal for acute postoperative pain, 274
Calcium channels, voltage-dependent, neuropathic pain and, 283
Cancer pain, intrathecal bupivacaine-ropivacaine for, 480
Capsaicin-induced allodynia/hyperalgesia, oral mexiletine for, 468
Cataract surgery, peribulbar anesthesia, ropivacaine versus bupivacaine-mepivacaine for, 195
Catheter
epidural, tip cultures from, 360
fibrosis/inflammation, 117
malfunction, 117
placement, nerve injury from, 83
Caudal anesthesia, pediatric, learning curves for, 385
Celiac plexus block anatomy, computed tomography of, 411
Cell death, in central nervous system, 22
Central sensitization
absence, in acute pain model, 174
in dorsal horn, 6
Cesarean delivery
combined spinal epidural anesthesia, effects of epidural injection on spinal block during, 591
intrathecal morphine-induced pruritus, ondansetron for, 535
spinal anesthesia
bupivacaine-sparing effect of fentanyl, 240
low-dose bupivacaine-fentanyl, 235
Children. *See* Pediatric anesthesia
Cholinergic agonists, clinical/preclinical studies, 117
Circumcision, dorsal penile nerve block supplemented with ropivacaine, 424
Clonidine
adding to bupivacaine-fentanyl PCEA, 34
conduction block, in rat sciatic nerve fibers, 620
epidural, versus spinal for obstetric analgesia, 3
for upper extremity tourniquet pain, 502
Cluneal nerve entrapment, superior, 648
Coaxial imaging technique, for superior hypogastric plexus block, 643
Colon distension, pelvic nerve fiber responses, pharmacologic manipulation of, 632
Colonic resection, continuous epidural analgesia for, 498
Colonization, of epidural catheter, 360
Combined spinal epidural technique
alleged problems with, 104 (letter)
effects of epidural injection on spinal block during, 591
patient-controlled, dural puncture effects on, 254
for rapid labor analgesia in nulliparous partiturents, 223
Complex regional pain syndrome, from glomus tumor, 69
Complications. *See also under specific techniques*
epidural abscess, 428
from epidural catheter colonization, 360
intrathecal morphine-induced pruritus, 535
pneumothorax, after intraclavicular brachial plexus block, 600
postdural headache. *See* Postdural puncture headache
subarachnoid catheter pump displacement, from spinal opioid therapy, 204
Compound action potential, in rat sciatic nerve with clonidine versus clonidine and α2-adrenergic antagonist, 620
Computed tomography
celiac plexus block, 411
for maxillary nerve block, 417
for percutaneous neurolytic block, 437 (letter)
in planning epidural anesthesia, 113
for pudendal nerve block guidance, 420
Computers. *See* Internet resources
Continuous administration
epidural analgesia, versus patient-controlled analgesia for spinal fusion, 246
Mansour's sacral plexus block, 208 (letter)
ropivacaine, for axillary brachial plexus block, 47, 664 (letter)
spinal anesthesia
catheter comparison for, 584
with Spinocath, 330 (letter)
ziconotide, for acute postoperative pain, 274
Cranial nerve palsy, after implantation of intrathecal drug delivery device, 76
Current perception threshold, in schizophrenia, 475

Decarbamoyl saxitoxin, sciatic nerve block, 52
Deep venous thromboprophylaxis, epidural hematoma after, 72
Dexamethasone, effect on pain from intramuscular local anesthetic injection, 615
Diabetic neuropathy, high-dose lidocaine for, 279
Diplopia, after implantation of intrathecal drug delivery device, 76
Dog, epidural IQB-9302 and buipvacaine in, 522
Dorsal column stimulator, revision of lead without lead replacement, 201
Dorsal penile nerve block, ropivacaine supplementation of, 424
Dural puncture
cranial nerve palsy and intracranial subdural hematoma after, 76
effect on PCEA with fentanyl-bupivacaine, 254
Dura mater lesions, produced by spinal needles, 393

ED_{50}, saxitoxin/saxitoxin homologues, 52
Elderly. *See* Geriatric patients
Eldor spinal needle, versus Pencan, 210 (letter)
Electron microscope, 372
EMLA, for postmastectomy pain, 350
End-stage renal disease complications, neurolytic lumbar sympathetic block for, 310
Entrapment neuropathy, superior cluneal nerve, 648
Epidural abscess
after epidural analgesia, 79
after thoracic epidural anesthesia via modified Taylor approach, 561

case report and literature review, 428
from epidural catheter colonization, 360
Epidural analgesia
bupivacaine, versus buprenophrine, 212 (letter)
caudal pediatric, learning curve for, 385
complications
epidural abscess, 79
hematoma, 72
maternal fever and neonatal sepsis, 549
continuous
after colonic resection, 498
lateral cervical catheter placement for, 313
fentanyl, supraspinal effects, 60
patient-controlled
bupivacaine-fentanyl, clonidine effects on, 34
prior dural puncture and, 254
pharmacy-prepared solutions, expiration dates for, 368
planning, imaging studies for, 113
ropivacaine, with fentanyl and epinephrine, 223
Epidural anesthesia. *See also* Combined spinal epidural technique
bupivacaine, epinephrine infusion effects, 228
effect of standard diluted epinephrine infusion on, 529
IQB-9302, antinociceptive and motor-blocking action of, 522
lidocaine, with epinephrine, 380
lidocaine with epinephrine, pharmacokinetics in elderly, 268
neurologic complications, 83
patient-controlled, dural puncture effects on, 254
pediatric thoracic, via modified Taylor approach, 561
technical aspects and postoperative sequelae, 488
Epidural blood patch, for cranial nerve palsy and intracranial subdural hematoma, 76
Epidural catheter
placement
for continuous unilateral upper extremity analgesia and sympathetic block, 313
using nerve stimulation with radiologic confirmation, 306
removal, facilitation of, 208 (letter)
tip cultures, 360
Epidural epinephrine infusion
effect on labor anesthesia, 529
effect on maternal/fetal outcome with bupivacaine analgesia, 228
Epidural infusion systems, manipulation of, 343
Epidural needles, metallic microparticles in, 436 (letter)
Epidural solution sterility, expiration dates and, 368
Epidural space identification, quality of analgesia after, 596
Epidural test dose, simulated, during isoflurane pediatric anesthesia, 566
Epinephrine
with epidural bupivacaine, maternal-fetal outcome and, 228
with epidural lidocaine, respiratory gas exchange and hemodynamics, 380
simulated epidural test dose during isoflurane pediatric anesthesia, 566
Excitotoxicity, 22

Femoral nerve block, bending sign technique for, 661 (letter)
Fentanyl
with bupivacaine, for Cesarean delivery, 240
intraarticular, with bupivacaine for postoperative pain, 611
intrathecal, with ropivacaine and bupivacaine, 223
naloxone-antagonizable antinociception and respiratory depression in sheep pain model, 174
patient controlled analgesia, minimum effective concentration for, 259
supraspinal effects, via epidural versus intravenous routes, 60
Fever, after epidural labor analgesia, 549
Fluoroscopy
coaxial imaging technique, for superior hypogastric plexus block, 643
during supraclavicular lateral paravascular brachial plexus block, 327 (letter)
Free radicals, high-dose lidocaine effects on, 279

GABA agonists, clinical/preclinical studies, 117
Geriatric patients
hip fractures, lumbar and sacral block versus bupivacaine spinal anesthesia, 158
lidocaine pharmacokinetics after epidural administration, 268
Gestational hypertension, spinal anesthesia for postpartum tubal ligation and, 170
Glomus tumor, chronic, 69
Glutamate antagonists, 22
Glycinexylidide, plasma concentrations after epidural lidocaine administration in elderly, 268

Hematoma
after axillary brachial plexus block, 103 (letter)
epidural, after epidural unfractionated heparin, 72
subdural, after implantation of intrathecal drug delivery device, 76
Hemodynamics, bupivacaine spinal anesthesia versus lumbar plexus block with sacral plexus block, 158
Heparin
neurologic complications, 83
unfractionated, for thromboprophylaxis, epidural hematoma after, 72
Hip arthroplasty, continuous spinal anesthesia, catheter comparison for, 584
Hip fractures, lumbar and sacral block versus bupivacaine spinal anesthesia, 158
History articles
Bier, August, 26
Perthes, George, 296
Wood Library-Museum Laureat announcement, 654
Hyaluronidase, with alkalinized lidocaine and buipvacaine for sub-Tenon's block, 514
Hyperalgesia
capsaicin-induced, oral mexiletine for, 468

secondary, oral ketamine effects on, 452
Hyperparathyroidism, secondary, complications, neurolytic lumbar sympathetic block for, 310
Hypotension management, during spinal anesthesia, 322 (letter)

Idazoxan, effect on clonidine-induced conduction block, 620
Infections
epidural site with subsequent epidural abscess, 428
from intraspinal drug delivery, 117
Intercostal nerve block, for postthoractomy pain with myofacial pain component, 302
Internet resources
for anesthesiologist, 99
for pain medicine specialist, 291
Interscalene brachial plexus block
for complete brachial plexus palsy after shoulder arthroplasty, 318
deltoid twitch as endpoint for, 356
nerve stimulator for, 340
successful, interscalene triangular swelling in, 662 (letter)
Interscalene triangular swelling, in successful interscalene brachial block, 662 (letter)
Intervertebral space, L4/L5, Tuffier's line as landmark for, 663 (letter)
Intraarticular injection, for pain control after rotator cuff repair, 611
Intraclavicular brachial plexus block, ultrasound-guided, 600
Intramuscular injection pain, effect of dexamethasone on, 615
Intraspinal drug delivery, 117
Intrathecal administration
bupivacaine and ropivacaine, for refractory pain, 480
for combined spinal and epidural technique, with ropivacaine/bupivacaine/fentanyl, 223
drug delivery device placement complications, 76
morphine, pruritus induced by, 535
opioid internal infusion pump, subarachnoid catheter pump displacement from, 204
ziconotide, for acute postoperative pain, 274
Intravenous regional anesthesia, with clonidine, for tourniquet pain, 502
IQB-9302, epidural, antinociceptive and motor-blocking action of, 522
Ischemia test, in glomus tumor diagnosis, 69
Isoflurane anesthesia, supraspinal pupillary effects of intravenous versus epidural fentanyl, 566

Kappa opioids, pelvic nerve fiber response to colonic distension, 632
Ketamine, oral, effects on secondary hyperalgesia, 452
Ketorolac
effect on fentanyl antinociception in sheep pain model, 174
with lidocaine for peripheral nerve block, 506
Knee arthroplasty
continuous spinal anesthesia, catheter comparison for, 584
unilateral spinal anesthesia, low-dose plain versus hyperbaric bupivacaine for, 605

Labor analgesia. *See* Obstetric analgesia
Laser Doppler imaging, of skin blood flow changes after intradermal bupivacaine and levobupivacaine injection, 626
Latex injection, spread in prevertebral interlaminar space on cadaver, 573
LD_{50}, saxitoxin/saxitoxin homologues, 52
Lead revision, without lead replacement, 201
Levobupivacaine, intradermal, skin blood flow changes, 626
Lidocaine
with bupivacaine, alkalinized with hyaluronidase for sub-Tenon's block, 514
epidural
pharmacokinetics in elderly, 268
versus procaine for transient neurologic symptom incidence, 218
with/without epinephrine, 380
high-dose intravenous, effect on superoxide dimutase and malon dialdehyde in diabetes, 279
infraclavicular brachial plexus block, ultrasound-guided, 600
peripheral nerve block, ketorolac addition effects on, 268
peripheral nerve block with bupivacaine, tinnitus suppression from, 67
regional anesthesia, aphesia after tourniquet release in, 211 (letter)
Local anesthetics. *See also specific local anesthetics*
alkalinization, precipitation of ropivacaine and, 518
inhibition of thromboxane A_2 receptor signaling, 187
intramuscular injection pain, effect of dexamethasone on, 615
for peribulbar anesthesia, comparison of, 195
for postmastectomy pain, 350
saxitoxin *vs.* saxitonin homologues for sciatic nerve block, 52
stellate ganglion block, regional blood flow and, 389
toxicity, 83
Longus colli muscle, injectate spread during stellate ganglion block, 573
Loss-of-resistance, in epidural space identification, 596
Love's test, for glomus tumor diagnosis, 69
Low back pain, from superior cluneal nerve entrapment, 648
Lower extremity pain, neurolytic lumbar sympathetic block for, 310
Lumbar epidurography, case reports, 540
Lumbar plexus block, with sacral plexus block, versus bupivacaine spinal anesthesia, 158
Lumbar spine pain, from vertebral osteophytes, 324 (letter)
Lumbar sympathetic block, for calciphylaxis, 310

Magnetic resonance imaging, in planning epidural anesthesia, 113
Malon dialdehyde levels, high-dose lidocaine effects on, 279

Mastectomy pain, EMLA for, 350
Maxillary nerve block, for trigeminal neuralgia, computed tomography in, 417
Mechanoreceptors, in visceral pain sensitization, 632
Medical resources, on-line
  for anesthesiologist, 99
  for pain medicine physician, 291
Meninges, lesions produced by spinal needles, 393
Meningitis, following neuroaxial anesthesia, 83
Mepivacaine
  with bupivacaine for peribulbar anesthesia, versus ropivacaine, 195
  for subclavian perivascular brachial block with nerve stimulator, 41
Methadone, intrathecal hyperbaric, in postoperative analgesia of thoracic surgery, 325 (letter)
Mexiletine, oral
  effect on capsaicin-induced allodynia and hyperalgesia, 468
  efficacy on neuropathic pain with allodynia, 459
Microintralong, versus Spinocath for time/incidence of paresthesia, 330 (letter)
Minimum effective concentration, for fentanyl patient controlled analgesia, 259
Monoethylglycinexylidide, plasma concentrations after epidural lidocaine administration in elderly, 268
Morbidity
  catheter-associated, 117
  from intraspinal drug implants, 117
Morphine
  intraarticular, with bupivacaine for postoperative pain, 611
  intrathecal, induction of pruritus, ondansetron for, 535
  long-term spinal, clinical/preclinical studies, 117
Multimodal analgesia, 6
Myofacial pain, with posthoracotomy pain syndrome, 302
Myotoxicity, dexamethasone effects on, 615

Needle placement, nerve injury from, 83
Neosaxitoxin, sciatic nerve block, 52
Neostigmine, coadministration for axial brachial plexus anesthesia, 323 (letter)
Nerve stimulator
  for interscalene block, deltoid motor response as endpoint for, 356
  for interscalene brachial plexus block, 340
  with radiologic confirmation, for epidural catheter location determination, 306
  selective, in femoral block, 661 (letter)
  in subclavian perivascular brachial block, 41
Neuraxial block, with preexisting neurologic disorders, 83
Neurologic complications
  from intraspinal drug delivery, 117
  from spinal and epidural anesthesia, 83
Neuropathic pain
  with allodynia, oral mexiletine for, 459
  clinical features, 6
  voltage-dependent calcium channels in, 283
Neuropeptide-toxin conjugates, in pain research/treatment, 546
Neutrophil superoxide production, serotonin receptor antagonist effects on, 181
NMDA receptor, excitotoxicity, 22
NMDA receptor agonists, clinical/preclinical studies, 117
NMDA receptor antagonist, oral, effects on secondary hyperalgesia, 452
Nocistatin, 408
Nonsteroidal antiinflammatory drugs
  effect on fentanyl antinociception in sheep pain model, 174
  with lidocaine for peripheral nerve block, 506

Obstetric analgesia
  combined spinal and epidural technique for nulliparous parturients, 223
  effect of standard diluted epinephrine infusion on, 529
  epidural
    epinephrine infusion effects, 228
    patient-controlled, clonidine effects on, 34
    versus spinal clonidine, 3
  spinal, versus epidural clonidine, 3
Obstetric anesthesia
  epidural space identification, quality of analgesia after, 596
  spinal
    bupivacaine-sparing effect of fentanyl, 240
    low-dose bupivacaine-fentanyl, 235
Ocular surgery, sub-Tenon's block for, 514
Ondansetron, for intrathecal morphine-induced pruritus, 535
Opioids. *See also* Morphine
  fentanyl. *See* Fentanyl
  gastrointestinal effects, antagonism of, 639
  kappa, pelvic nerve fiber response to colonic distension, 632
  long-term spinal, clinical/preclinical studies, 117
Orthopedic surgery, patient controlled analgesia, minimum effective concentration for, 259
Oxygen consumption, epidural lidocaine with/without epinephrine and, 380

Pain

Parasacral sciatic nerve block, versus bupivacaine spinal anesthesia, 158
Paravertebral block, thoracic, variability of, 325 (letter)
Paresthesia, time/incidence, Spinocath versus Microintralong, 330 (letter)
Patient-controlled analgesia
  versus continuos epidural analgesia, for spinal fusion, 246
  epidural bupivacaine-fentanyl
    clonidine addition effects, 34

prior dural puncture and, 254
Pediatric anesthesia
caudal epidural blocks, learning curves for, 385
thoracic epidural via modified Taylor approach, 561
unintentional epidural injection, heart rate increase and, 566
Pelvic pain, computed tomography-guided pudendal nerve block for, 420
Pencan spinal needle, versus Eldor, 210 (letter)
Percutaneous neurolytic block, computed tomography, 437 (letter)
Peribulbar anesthesia, ropivacaine versus bupivacaine-mepivacaine, 195
Perineal pain, computed tomography-guided pudendal nerve block for, 420
Peripheral nerve block
bupivacaine equipotency with ropivacaine in, 659 (letter)
clonidine, α2-adrenergic receptors and, 620
Peripheral nerve injury, 6
pH adjustment, of local anesthetics, 518
Phantom limb pain, 6
Plasma concentration, in fentanyl patient controlled analgesia, 259
Pleuritic pain, thoracic paravertebral block for, 651
Pneumothorax, after intraclavicular brachial plexus block, 600
Postdural puncture headache, 347
tip-holed spinal needle, 403
with cranial nerve palsy and intracranial subdural hematoma, 76
Quincke versus Whitacre needles, 393
Posthoracotomy pain syndrome, with myofacial pain, 302
Postoperative analgesia, ropivacaine dosage, 47
Postoperative pain
intraarticular morphine with bupivacaine, 611
intrathecal ziconotide for, 274
lateral cervical epidural catheter placement, 313
in schizophrenia, 475
Postoperative sequelae, after spinal or epidural anesthesia, 488
Preeclampsia, spinal anesthesia for postpartum tubal ligation and, 170
Pre-emptive analgesia
development of secondary hyperalgesia after surgery and, 174
literature review, 6
Prevertebral fascia, injectate spread during stellate ganglion block, 573
Procaine, versus lidocaine for transient neurologic symptom incidence, 218
Pruritus, intrathecal morphine-induced, 535
Psychometric factors, in fentanyl patient controlled analgesia, 259
Pudendal neuralgia, computed tomography-guided, 420
Pulmonary vasoconstriction, ropivacaine attenuation of, 187
Pupillary reflex dilation, epidural versus intravenous fentanyl, 60

Quincke needle
after subarachnoid puncture, microscopic analysis of, 163
dural lesions, electron microscopy of, 393

Radial nerve injury, after axillary brachial plexus block, 103 (letter)
Radiography
of lumbar spine, after lumbar fusion, 286
with nerve stimulation in determining epidural catheter location, 306
Rat
neurotoxicity of intrathecal tetracaine, 372
sciatic nerve block
clonidine, 620
saxitoxin versus saxitoxin homologues for, 52
Reactive oxygen species, in neutrophils, serotonin receptor antagonist effects on, 181
Reflex sympathetic dystrophy, lateral cervical epidural catheter placement, 313
Refractory pain, intrathecal bupivacaine-ropivacaine for, 480
Regional anesthesia. *See also specific regional anesthetic techniques*
ankle block, effect of ketorolac on, 506
low-dose bupivacaine-fentanyl, 235
pediatric caudal epidural block, learning curve for, 385
ropivacaine, 659 (letter)
Ropivacaine
alkalinization and precipitation characteristics, 518
anxiety/agitation after upper extremity blocks and, 103 (letter)
continuous axillary brachial plexus block, 47
dorsal penile nerve block supplementation, 424
efficacy in continuous axillary brachial plexus block, 664 (letter)
epidural analgesia, with fentanyl and epinephrine, 223
equipotency with bupivacaine in peripheral nerve block, 659 (letter)
intramuscular injection pain intensity, dexamethasone effect on, 615
peribulbar anesthesia, versus bupivacaine-mepivacaine, 195
pulmonary vasoconstriction attenuation, 187
regional anesthesia, 659 (letter)
Rotator cuff repair, intraarticular morphine bupivacaine for, 611

Sacral plexus block
continuous, Mansour's technique for, 208 (letter)
with lumbar plexus block, versus bupivacaine spinal anesthesia, 158
Safety, spinally delivered drugs, 117
Saline, for epidural space identification, quality of analgesia after, 596
Sarpogrelate, effect on superoxide production in human neutrophils, 181
Saxitoxin, sciatic nerve block, 52
Scanning electron microscopy, of dural lesions produced by spinal needles, 393

Schizophrenia, pain insensitivity in, 475
Sciatic nerve block, saxitoxin versus saxitoxin homologues, 52
Scoliosis, spinal fusion, continuous epidural versus patient-controlled analgesia for, 246
Sensitization, pain, 6
  central. *See* Central sensitization
Sepsis, after maternal epidural labor analgesia, 549
Serotonin receptor antagonist, effect on superoxide production in human neutrophils, 181
Sheep pain model, lack of secondary hyperalgesia and central sensitization in, 174
Shoulder arthroplasty, with intrascalene block, postoperative brachial plexus palsy, 318
Skin blood flow
  after intradermal bupivacaine and levobupivacaine injection, 626
  stellate ganglion block effects, 389
Somatostatin, clinical/preclinical studies, 117
Spinal abscess, following neuroaxial anesthesia, 83
Spinal analgesic agents, long-term
  clinical literature review, 117
  historical aspects, 117
  preclinical studies, 117
Spinal anesthesia. *See also* Combined spinal epidural technique
  bupivacaine, versus lumbar plexus block with sacral plexus block, 158
  bupivacaine-fentanyl, 240
    low-dose, 235
  complications, neurologic, 83
  equipment, dural lesions from, 393
  hypotension management during, 322 (letter)
  for postpartum tubal ligation after complicated pregnancy, 170
  technical aspects and postoperative sequelae, 488
  with tip-holed spinal needle, 403
  transient neurologic symptom incidence, procaine versus lidocaine, 218
  unilateral, low-dose plain versus hyperbaric bupivacaine for, 605
Spinal column stimulator
  lead revision without lead replacement, 658 (letter)
  revision of lead without lead replacement, 201
Spinal cord
  compression
    from epidural abscess, 428
    metastatic epidural, imaging of, 113
  pain transmission, 6
Spinal drug therapies, combination, clinical/preclinical studies, 117
Spinal fusion
  continuous epidural versus patient-controlled analgesia for, 246
  lumbar, postoperative radiographic appearance of lumbar spine, 2286
Spinal hematoma, following neuroaxial anesthesia, 83
Spinal infusion pump, subarachnoid catheter displacement from, 204
Spinal needles
  ball-pen, first experience with, 209 (letter)
  dural lesions, scanning electron microscopy of, 393
  Eldor versus Pencan, 210 (letter)
  tip-holed design, 403
  tissue coring with, 665 (letter)
Spinal needle tip, after subarachnoid puncture, microscopic analysis of, 163
Spinocath
  continuous spinal anesthesia with, 330 (letter)
  versus Microintralong for time/incidence of paresthesia, 330 (letter)
Sprotte needle, after subarachnoid puncture, microscopic analysis of, 163
Stellate ganglion block, 558
  bilateral effect on facial skin blood flow, 389
  injectate spread and fascial arrangement in prevertebral region, 573
Stereoisomerism, bupivacaine, effect on skin blood flow after intradermal injection, 626
Subarachnoid catheter displacement, from spinal infusion using internal infusion pump, 204
Subclavian perivascular brachial block, with nerve stimulator, 41
Subdural hematoma, after implantation of intrathecal drug delivery device, 76
Sub-Tenon's ophthalmic block, alkalinized lidocaine-bupivacaine with hyaluronidase for, 514
Sufentanil, intraarticular, with bupivacaine for postoperative pain, 611
Superior cluneal nerve entrapment, case report, 648
Superior hypogastric plexus block, coaxial imaging technique, 643
Superoxide, production in neutrophils, serotonin receptor antagonist effects on, 181
Superoxide dismutase, high-dose lidocaine effects on, 279
Supraspinal effects, fentanyl, via epidural versus intravenous routes, 60

Taylor approach, for pediatric thoracic epidural anesthesia, 561
Tetracaine, intrathecal, neurotoxicity of, 372
Tetrodotoxin, sciatic nerve block, 52
Thermoregulation, epidural labor analgesia and, 549
Thoracic epidural anesthesia, pediatric, 561
Thoracic paravertebral block, 651
Thromboprophylaxis, unfractionated heparin, epidural hematoma after, 72
Thromboxane signaling, 187
Throracic paravertebral block, for pleuritic pain, 651
Tinnitus suppression, after bupivacaine/lidocaine peripheral nerve block, 67
Tissue coring
  with different spinal needles, 163
  with spinal needles, 665 (letter)
Tourniquet pain, intravenous clonidine for, 502
Training, pediatric caudal epidural blocks, 385
Transient neurologic symptoms
  avoidance of, 215
  intrathecal tetracaine, 372
  procaine versus lidocaine spinal anesthesia, 372

Trigeminal neuralgia, maxillary nerve block, computed tomography for, 417
Trigger point injection, for postthoracotomy pain with myofacial pain component, 302
Tubal ligation, postpartum, after complicated pregnancy, spinal anesthesia for, 170
Tuffier's line, as landmark for L4/L5 intervertebral space, 663 (letter)
Tumor necrosis factor-α, nervous system homeostasis and, 110

Ultrasound guidance, for intraclavicular brachial plexus block, 600
Upper extremity blocks, anxiety/agitation after, ropivacaine and, 103 (letter)
Upper extremity pain, glomus tumor, 69
Upper extremity surgery, ultrasound-guided infraclavicular brachial plexus block, 600
Urinary complications, continuous epidural analgesia for colonic resection, 498
Uterine blood flow, during epidural analgesia, epinephrine infusion effects, 228

Vertebral compression fracture, osteoporotic, pain management for, 328 (letter)
Visceral pain, physiology/pathophysiology of, 632

Whitacre needle
  after subarachnoid puncture, microscopic analysis of, 163
  dural lesions, electron microscopy of, 393
Winnie's technique, for subclavian perivascular brachial block with nerve stimulator, 41
World Wide Web resources. *See* Internet resources

Yohimbine, effect on clonidine-induced conduction block, 620

Ziconotide, intrathecal for acute postoperative pain, 274

Regional Anesthesia and Pain Medicine 25(6): 675–677, 2000
